Dear Cousin Jack & family

we miss you, and were so glad to hear from you, sorry the letters and photographs were lost, will send some more under separate cover. your letter was the best Christmas present we received. Louise was really happy to hear from you, she is improving, and able to work around home.

we thank you for the information you sent us and do hope you will not get tired of all our questions, but we are so anxious to know of our people over there, and are trying to get this information while your mother is still alive, as I am sure she can help. we have one more question about our great grand mother we do not know her first name. If its possible would like to know, that would be John Smith's wife Willie's mother.

would you know of any Tombstone
monuments were erected to the Smith
family anywhere in any church yards?
If so do you know of any one who would
be instructed in getting a copy for us
for a couple of Dollars or so, we would
be happy to pay them.

we have the daughters name you
write about that William Mother went to, &
stayed until her death, (Mary Ann Smith)
Do you know Mother's name her Mainer's
name?

Excuse all the questions, thanks -

we had a very nice Christmas had part
of our family home, we have a daughter &
son living in Idaho, they did not
get down, we have 12 grandchildren
part of them were here, because we
held children around at Christmas
time to make it complete.

we had a little snow for Christmas but
it all gone for New Years - has been
raining & some snow flakes today.
we wish you all a Happy and Prosperous
New Year & Health & Happiness
