Up at 6:30 - to Dr. Wirthlin (Lansing surgeon). I like him. "Severe case of postherpetic". Gave me prescriptions of the same as Dr. Jackson, an ointment and one for pain. The ointment is to ease the burning. It has helped. The pain is, when I took a whole pill makes me feel woozy. I don't like the feeling.

four sisters. I'll mail Lottie & Wilma. We came home and  
had a nap.

We tried a "patch" of ointment. Had to wash it off in  
30 minutes. Burning like crazy.

Vivian leaves tonight. It has been so pleasant having  
her.

Neva Smith called. Theron had an upset - looked too  
thin, sleeping into his tissue. Doctor reducing the medication  
amount.

6<sup>th</sup>, Wed.

I slept good last night. Clarissa Mayfield called. In-  
vited me to go stay with her a week in three weeks. What  
a nice thing for her to offer. She said she didn't have any-  
one "to talk to" very often. She continues to improve from her hip  
surgery. So very diligent with her therapy. "thinks of good times in Hawaii".

Letter from Alise Best. She made a statement/question which I will probably use. She asked, "Are you better? Or just coping?" Lynn, her son, is in Florida on his mission.

Dr. appointment. He was behind schedule. Changed medication. The half I took, in place of percocet, doesn't seem to be very helpful. He (Dr. Wirthlin) just got back from a convention in San Francisco. He suggested an over the counter ointment to mix with what I already had - to dilute it I assume. Acid mantle is the ointment I got - mixed it - can't feel any soothing on my back where I put it.

Dr. Wirthlin didn't give me any encouragement when I asked him, "how long." A long time - months? Even a year or over. I thought I had mentally prepared myself. I guess I hadn't.

Mon. 4<sup>th</sup>

I attacked my sliding door/<sup>window</sup> small glass balls and part of my balcony. Surprise: the middle window was dirtiest on inside. The sliding door still looks dirty even after two attacks. I emptied a half bucket (small ice cream tub) to scrub the balcony - dripped down over the entry. I got chastised by Bob Schimig - justifiable - didn't help my side -

Audited one packet. Sister Neelman brought her packet. I took one to Lela Huist who is through with the special project she and Bro. Whithead had been working on since November. She is a lovely woman.

When I mentioned activity causing additional pain Dr. Withlin said, "yes, activity aggravates but won't cause harm (damage)." That's good to know.

1st Apr. Mon

Woke up and as I looked in the mirror - a shock - an inch black - purple - not sore - I wondered if my prescriptions were "side-effecting" - Dr. Wirthlin returned my call; I needed perisart prescription re-filled - by then I didn't think it was too rational that the medication would have caused "the spot". I did give my eyes a good scratching/digging as I got in bed / took my glasses off - assumption of Dr. Wirthlin & Julia Carver that I must've broken a little blood vessel.

Finished auditing a packet. Picked up prescription - bought some groceries.

Betty Davidson invited me to their F.H.E. - I declined. She talked at some length of what she feels is wasted time / inefficiency in library.

Visiting teaching to Gay & Alison Mitchell. A good lesson — "Our Divine Worth". From lesson: we shanted for joy when we were to come to earth prepared to take labor for the salvation of men; Our Heavenly Father sent us <sup>here</sup> each with different gifts and different tasks to do. Jobs Jobs that no one else could do as well as each individual; we came to earth where & when we could progress & bless the lives of others; Elder #. Burke Petersen <sup>said</sup> that we were preserved to come to earth for a special purpose. There are things for each of us to do that no one can do as well as you! If we let them —

Our Father will walk with us through life's journey  
 & inspire you to know your special purpose.

Conference. What a treat. Ellen Raba & Packer

awakened by a phone call a little after 7:00 AM - Betty Davidson's daughter - they'd been in a "minor" accident & asked if I'd let her in -

An appointment Dr. Lehey, internist, re swollen/lump under left ear. I think I'm going to like him. Feels it (lump) has even caused by the Pamela I'm taking. Suggested I suck lemon drops - keep liquids flowing.

Bought 4 cups strawberries. Not as good as the ones I bought Monday. The price was right: 49¢/cup - Smith's coupon item. Left one at Anne Hawkins + Gladys Banks. Dropped one off to Julia Carver.

A cup of strawberries for lunch. To ZCM & Mall to leave my ZCM & discount coupons with Anne Hawkins & have the S & L Branch R.S. roll xeroxed. Also ZCM & holiday with special <sup>release</sup>.

Finished Understood Betty by Dorothy Canfield, children's book best appreciated by an adult.

Thurs. 11<sup>th</sup>

Helen Pearson called me last night to tell me of Virginia Richardson's death. (She, Will and Leeta were leaving for Seret's graduation in Paris Island, S.C. at midnight.)

I went to the funeral - feeling guilty that I hadn't visited her while she lived. Virginia & I carpooled the 11 years I taught at Broadbent Jr. High in the from 1949-1959-60. I wept at the funeral - not from sadness but it touches me when good things are said about people that are true. Irene + Mark McKinnon were there. Virginia had married Irene's mother's brother. I had never had the kinship clarified. It was good to see them. I spoke to Lucylan, Virginia's daughter, so much like her mother. Dennis, her son, is a Bp. now.

So many trees in bloom - frosted with snow. It has been a blizzardy off again on again, day.

Finished the S. L. Home's Relief Society roll
